Mario's Story...

As a cancer survivor, Mario delivers empowering and inspirational presentations with a focus on achievement, attitude, and positive inner change. His spectacular style and real-world storytelling continues to engage and captivate healthcare professionals and patients, motivating them to become their own personal best.

"It was the greatest challenge of my life. When I was diagnosed, I wasn't scared, nor did I have thoughts of dying, all I could think about was leaving my three boys behind. I was so determined to beat this dis-ease that I immediately started building some wonderful visions around my new purpose and focused on them continuously.

During everything my family and I went through, I always kept the faith and perceived this great challenge as a turning point: a blessing and gift in my own life and, most importantly, in the lives of others."

Mario's newest book project is **Discover Your Inner Strengths**. He was one of only twelve speakers chosen from a nation-wide search to co-author this book, along with best selling authors Brian Tracy (*Million Dollar Habits*), Stephen Covey (*Seven Habits of Highly Effective People*), and Ken Blanchard. **Discover Your Inner Strengths** is expected to be released early fall 2008.
